

## Portals Content Development Services

[www.bayforce.com](http://www.bayforce.com)

### Unifying Access to Information for Results-Driven Businesses

*"BayForce's SAP Portals expertise provided us with solutions to optimize our portals performance as well as enhance our ESS Open Enrollment functionality quickly and effectively."*

- Sr. Manager, SAP Business Applications, Forest Labs

The SAP Netweaver Portal leads the industry as the most comprehensive, robust portal product available in the marketplace. However, many portal implementations focus solely on the technical aspects rather than every day needs of the business. Due to the unfamiliarity of the portal J2EE architecture, many SAP Customers experience portal performance and integration issues. In addition, independent market research has found that nearly 50% of all portal implementations fail because relevant, significant content is not developed during, or maintained after, the implementation.

BayForce provides the expertise to optimize and integrate your portal as well as develop, enhance and modify SAP Netweaver content to meet your business needs. Pre-defined content from SAP only addresses approximately 60% of most customer needs. BayForce works with your business executives and users to determine your customized content needs and develops solutions specifically for your business.

#### BayForce Clients include:

Office Max  
Kimberly Clark  
Hollister Inc.  
Abbott Labs  
Johnson & Johnson

## About BayForce

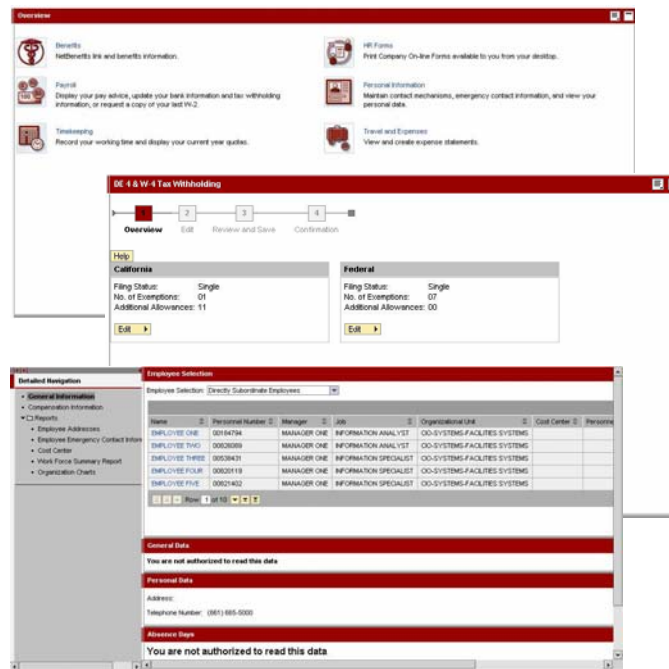

BayForce was formed in 1996 by former Big-4 SAP consultants with a mission to apply a value added consulting approach to SAP contract services. BayForce specializes in the SAP services space across the R/3 functional consulting, New Dimension products (SRM, CRM, Portals, and BW) and ABAP development. We service over 100 SAP customers located across the country including Office Max, Kimberly Clark, and Abbott Labs to name a few.

We have been focused in the SAP space for over 11 years. Our outstanding SAP capabilities and reputation in the SAP marketplace has been recognized and BayForce has achieved the designation of a Certified SAP Partner by SAP America.

Offices: Chicago, Tampa
